

2022 ARCH Building and Grounds Annual Report

We had a group from Liberty Mutual at the house for a Serve with Liberty day. Tasks they performed included vacuuming all three floors and cleaning the windows inside the house, cleaning up the raised kitchen garden, thinning out the brush along the East side of the house and consolidating our fire wood pile. They also loamed and seeded the thinning grass areas and built up the grade to the foundation with crushed stone at the front of the house.

Hopeful projects for this year include:

- Extending the gutter at the lean-to, the full length of the house.
- Reshingle the portico roof.
- Reglaze some of the windows on the South or front elevation of the house.
- Repair some wood rot on some of the trim boards.
- The main roof will be power washed.

Future projects include:

- Reshingle the main roof.
- A period correct out-building.
